THE St. Louis Globe-Democrat says If silver advances even two or three cents a year the gap between it and gold may soon be bridged. Gold production is growing so rapidly that that metal may decline in price. An advance in silver and a decline in gold, if kept up long enough, would solve the silver problem.

SECRETARY MORTON is having some statistics prepared for a bulletin of information which show the farm mortgages amount to 2 per cent. of farm valuation. It also appears that the railroad mortgages on roads in this country amount to 28 per cent. valuation, and thus it will be made to appear from the information, given that the farmers are troubled less with indebtedness than are the railroads.

THE director of the Illinois state weather bureau proved by statistics exhibited before the recent meeting of the weather forecasters the direct connection between great heat and the increase of crime. He took the reports of the Chicago police force as the basis of his calculations and demonstrated that the number of arrests in July August and September was nearly double the number in January, Febreary and March.

Attorney General Harmon made his initial appearance in his official capacity before the United States Supreme Court one day last week, making the opening argument in the Greer county case, involving the question of the boundary line between the state of Texas and the Territory of Oklahoma. Mr. Harmon outlined the claims of the general government to the territory in question, including all of what is known as Geer county in Texas, containing about 2,400 square miles, "a princely domain," he said, "and worthy the attention of the supreme tribunal of the United States."

The record in the case is very voluminous, including , nnumerable maps and much testimony, expert and otherwise, but the attorney general showed a very thorough understanding of the case, presenting his antument in a convincing manner. He claimed on behalf of the United States that the south fork of Red river was the main stream shown on Melish's map, which is made the guide to the line between the United States and Mexican territory as detoribed in the treaty of 1818, and contended, therefore, that Texas in selecting the north fork of the river as the oundary and organizing Greer county otween these two streams, had enoached upon the national domain. The court assigned four hours to the argument of the case on each side. Ex-Attorney General Garland is one of the

Their presence was had pursuant to the advice given by Judge Lacombe when the receivership question came up again in the United States court in the afternoon. His advice was that the counsel should unite in the appointment of receivers over the whole line, and for that reason he decided not to act on the suggestions to appoint Robert M. Galla way, who was spoken of in the court at a perfectly intelligent, able and upright man for that position and generally capable. He is president of the Merchants National bank and was the choice from the first, of President Ives who suggested his name over a week ago. The opposing interest, however demurred and sought delay, expecting to gain thereby and hoping perhaps that Judge Lacombe would confirm Receivers Modenry and Bigelow, who had been appointed by Judge Jenkins of Milwaukee, who had previously appointed the old Oakes receivership.

After a long conference all parties agreed to accept Robert M. Gallaway and decided upon united action in regard to the other receiverships. As a result there will soon be a united, harmonious receivership conducting the affairs of the Northern Pacific company which are now in the hands of five receivers.

Boston Milliona re Will be Sued for

New York, Oct. 26—On the ground that a youth smuggled into this country a real Stradivarius without paying duty, the customs officials are now after J. Montgomery Sears, the Bostom millionaire collector, who bought the instrument, and want to make him pay \$1,200 duty.

The custom house officials only re-

\$1,200 duty.

The custom house officials only recently discovered the trick which had been played upon the inspectors. At the beginning of the year Maurice Kaufman, said to be the favorite pupil of Maurice Hermann, a violinist in Frankfort, arrived on one of the steamers from that country. Part of his baggare was a case containing a violin.

Frankfort, arrived on one of the steamers from that country. Part of his baggage was a case containing a violin, which he carried in his hand.

Kaufman, it is now alleged, was simply the agent of the Frankfort professor, and the violin was a valuable Stradivarius, sent to this country.

Department officials took up the matter, and are said to have demanded 11,200 duty from Mr. Sears in lieu of seizing the old instrument and confiscating it. Mr. Sears refused to recognize the government's claim for duty or right to seize, as he purchased the instrument in this country, and there the matter rests for the moment.

BLAINE'S DAUGHTER IS UNHAPPY. It is Said 5he has Parted from Reals, Her tiusband.

Washington. Oct. 26.—There is a revival of the report that Mr. and Mrs. Truxton Beale have separated and that finally. Their unhappiness in their married life has been pretty well known, and friends on both sides who are well acquainted with the facts in the case say that this move is final, pending the proceedings for divorce which will ultimatly be instituted by Mrs. Beale has gone abroad and Mrs. Beale is with her mother at their home in Maine. In compatibility of temper is the reason assigned for the separation.

Mrs. Beale is the youngest daughter of the late James G. Blaine, and her marriage in May, 1894, to Mr. Truxton Beale, a member of one of the most distinguished Washington families, was supposed to be a genuine love match and their union was regarded with favor by their mutual friends.

Soon after their wedding day Mr. Beale began to show signs of incompatibility and his habits became quite eccentric.

Mr. Beale was a minister to Persia under President Harrison, and since his return has spent much of his time in the clubs of New York and Washington. He is the son of the late General Edward F. Beale, minister to Austra

DUG UNDER A FACTORY WALL.

Workmen Undermine a Structure which Falls and Buries Thom.

Cylde, O., Oct. 26—Half of the east will of the Elemore Manufacturing company's three-story bicycle factory collapsed at 7:30 this morning. All the floors were filled with workmen and more than a dozen were badly injured and several were buried beneath the debris.

and several were buried beneather debris.

Volunteers risked their lives to rescue the unfortunate. A young son of Foreman George Halloway was the first to be dug out. He was badly crushed and mangled but may recover. Frank Cook suffered internal injuries and will probably die. The work of removing the debris still continues but it is now thought that all the injured men have been rescued. The workmen commenced this morning to dig a trench along the east wall of the building for a water main and it was this which weakened the wall and caused it to collapse. The

men in the trench were caught under the falling wall and their escape from instant death was miracluous. DEFICITS TO MAKE UP.

COLT CASE NOT SETTLED. Reports to that Effect Denied by Mrs. Coli's

Providence, R. I., Oct. 26.—J. J. Van Allen, who figures unpleasantly in the domestic scandal in which the Colt family is involved, was not arrested today on the charges preferred by Colone Colt. In fact, no one seems to know the whereabouts of Mr. Van Allen, though he is reported to have been seen at the Knickerbocker club in New York yesterday. The report that Colonel and Mrs. Colt have agreed upon settlement to avoid further publicity being given to the scandal is positively denied by
